### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Substitute the abstract for this one.

A solar powered ventilator arrangement in a cover member for covering the deck of boat. The ventilator has a base with an axial projection for receiving a pole to support and a first plurality of axial openings that surround the axial projection. A first intermediary member has a first end connected to the base and a second end that is separated from the first diameter by a radial wall. An axial bore extends from the radial wall to the second end and a second plurality of axial openings surround the axial bore. The radial wall has an external groove adjacent the peripheral surface for retaining the cover member. A motor retained in the axial bore has a fan that is located in a chamber formed by joining the first intermediary member with the base. A second intermediary member has a second axial bore for receiving the second end of the first intermediary member and a third plurality of axial openings. An end member has a second annular groove on a first face for receiving a solar panel and an annular axial projection located on a second face.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The provided references are representative of the state of the art that is applicable to the applicant's invention. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Derek S. Boles at (571) 272-4872.
